

ANNUAL REPORT 2019 - 2020

APTUS
TREATMENT CENTRE
FOR COMPLEX DISABILITIES

Embracing Potential since 1979

Aptus' mission is to provide people who have developmental disabilities meaningful opportunities in the community to explore what matters to them.

The world's friendly neighbor, Mr. Rogers, once shared that when he was a boy and would see scary things in the news, his mother would tell him to "look for the helpers. You will always find people who are helping." This advice helped Mr. Rogers focus not on the tragedy but rather on the helpers and heroes. This year we have been **inspired by so many heroes**. We would like to highlight a few:

In the early weeks of the pandemic, developmental service agencies were not provided access to the province's stock of personal protective equipment. **Donors and families** stepped in, sewing and/or purchasing over 6,000 masks, 2,000 pairs of gloves, 1000 face shields, and gallons of sanitizer.

Due to pandemic Emergency Orders, families lost access to respite and programming for their children, resulting in some needing to give up employment. Corporate sponsors such as **CIBC** quickly stepped in, funding "activity boxes" created by Aptus so families would have a box of tools to provide home-based support. On the cover of this report and the picture beside this letter, you'll see how greatly this was appreciated. **Our generous golf sponsors and loyal donors have now raised over \$130,000** to help us continue providing respite and programming supports for families.

Our staff are heroes – lending their talents where needed, taking on added duties and longer shifts to enhance safety, and facing the risk of transmission with courage and a commitment to supporting those who rely on them for care, comfort and comradery.

As you will see in the following 2 pages, Aptus has also remained committed to achieving our strategic priorities and this has been a year of many achievements. Aptus is 68% towards completing **our 2022 strategic plan**.

However, this has also been a year of reckoning. In our financial snapshot, you will see that Aptus closed the fiscal year with a deficit. Aptus has focused on significant change, enabling improvements in the quality of supports and the introduction of evidence-based practices. Aptus had previously supported less than 200 people per year, where **in the past 5 years, Aptus' impact numbers have grown over 1000%** – now impacting 2,885 people this year. We have diligently examined our program spending, advocated to our funder for enhanced funding dollars, put measures in place to empower our teams to manage within budgets, and re-focused the impact of our fundraising dollars to strengthen the agency for the long-term. Aptus' fiscal strategies will result in the elimination of the deficit over the coming year.

We thank you for being a 'helper'. Your support is invaluable, as we continue to forge ahead in making an impact for people of all ages and abilities.

What Shape Are We In?

Status of Aptus' Strategic Plan and 2021 to Do's

Achieving Service Excellence – 84% of work complete

Evidence

Completed:

- Clinical review completed
- Clinical lead hired

2021 to do's

- Complete review of housing

Appropriate Staffing Levels

Completed:

- Determine appropriate staff levels for locations
- Identify and implement efficiencies to increase sustainability

2021 to do's

- Realign resources for staffing levels
- Develop metrics to monitor success of staffing levels

Access to Clinical Expertise

Completed:

- Clinical Implementation planned
- Clinical data tools developed
- Develop external clinical partnerships
- Align resources for clinical expertise

2021 to do's

- Hire remaining 40% of clinical staff

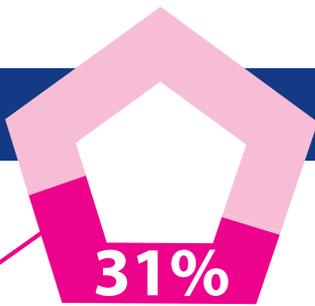

More Resources to Foster Inclusion

Completed:

- Best practices identified
- Evaluate locations' effectiveness & efficiency

2021 to do's

- Complete feasibility study re: Toronto School as also Admin & Adult Programs

Building a Culture of Learning – 31% of work complete

Objectives & Outcomes for all Programs

Completed:

- Align resources for program objectives

2021 to do's

- Redraft program objectives based on clinical review
- Develop program objectives data and metrics

Capacity to Measure

Completed:

- Data collection and analysis expertise identified
 - Accreditation bodies reviewed
- Review HR and financial data
- Select accreditation body

2021 to do's

- Identify metrics for program and quality improvements
- Train how to lead outcome-based performance evaluation

Performance Appraisal System

2021 to do's

- Evaluate appraisal systems against sector best practice
- Develop/select new appraisal system
- Orient staff to use system

Policies & Procedures

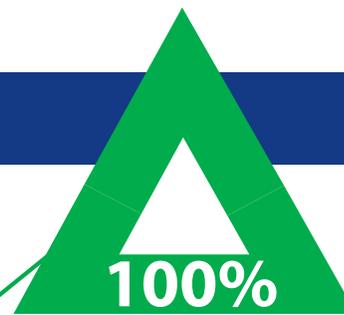

2021 to do's

- Review all HR policies and procedures against best practice
- Revise HR policies and procedures, as needed
- Orient staff on new HR policies and procedures

Resources for Core Competencies

2021 to do's

- Identify core competencies for each staff group (e.g., Supervisors)
- Identify gaps in core competencies for each staff group
- Plan training to address gaps

Engagement & Partnerships with all Stakeholders – 100% of work complete

Seek Partnerships

Completed:

- Review current partnerships based on Mission, Vision and Values
- Identify where partnerships could enhance range of quality of services
- Establish sustainable partnerships that enhance range and quality of services

Timely & Reciprocal Engagement

Completed:

- Review family communication and engagement tools
- Develop clear guidelines for family communication and engagement
- Review staff communication and engagement tools
- Consult staff on preferred methods
- Implement preferred methods
- Measure staff level of satisfaction re: communication improvements
- Provide communication guidelines overview to family and staff

Address Sector Gaps

Completed:

- Identify system gaps using research and networks
- Determine capacity and resources to address gaps
- Develop plan to address priority gaps

Providing opportunities for families to connect, share information and have a voice in quality assurance planning and Aptus initiatives

VOICE OF FAMILIES

2020 has been a year like no other in our lifetime! In our third year as *"the Voice for Families,"* many achievements were made by the Family Advisory Committee (FAC) before the dawn of the pandemic:

- We analyzed the feedback from our first **Family Satisfaction Survey** and identified priorities for action: Communication, Programming, Hygiene and Personal Appearance.
- We helped to create the **Aptus Treatment Centre Family Handbook**, in collaboration with Aptus senior leadership. The handbook, which is a great resource for all who have a family member supported by Aptus, was shared with the FAC and distributed to all families in February.
- We learned about new programming at Aptus which combines fitness and clinical benefits – **Recreation Therapy**. Through a video we learned about the therapeutic benefits of adapted yoga and other activities Aptus will offer.

Once the pandemic was declared, the FAC took on new duties to support the health and safety of family supported by Aptus and their valued staff:

- We sewed and/or accessed **hundreds of PPE masks and gowns** for staff, in addition to acquiring **forehead thermometers, face shields and hand sanitizers**.
- We transitioned to **Zoom meetings** to continue our collaboration and advocacy efforts. It was wonderful to see so many familiar faces and welcome new families.

We plan on continuing with virtual meetings and info sessions during the pandemic, as it is an opportune time to have families' voices heard and to share ideas and areas of concern. We hope to offer more educational sessions for families in 2021.

As the Chair of the FAC, I will continue to work with you and others to be *"the Voice for Families"* – bringing forward common issues and advocating for the best quality of care for our family members.

Sincerely,

A handwritten signature in black ink that reads "Terry Daly".

Terry Daly, CHRL, CHRP
Chair, Family Advisory Committee

RESIDENTIAL SERVICES

Over the past year, the residential-based team doubled as programming shifted away from being at a day services building to being community-based. Activities and outings were tailored to each person's goals and interests. The change also provided people with a greater sense of choice and freedom now that they did not need to adhere to a strict wake-up and departure schedule to attend the day program. "The people we support were excited to have more control over their lives, managing their time and sleeping in if they so choose," shared Anthony Nongmiseh, Team Manager.

As most in the province began isolating, Aptus' residential team continued working. Using the limited PPE available at the time, staff travelled to work and managed the increasing pandemic safety requirements for congregate settings such as group homes. Engaging programming continued, despite limitations. Families and loyal company supporters stepped in and funded or procured critically-needed PPE. The province soon committed to ensuring PPE access, including residential supports for people who have developmental disabilities in Ontario's essential services.

**59 people supported,
ages 23 to 65**

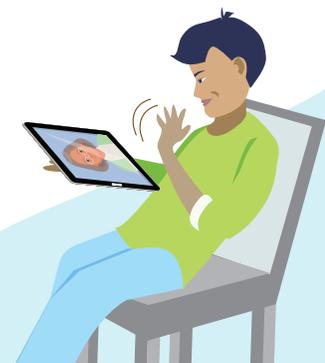

CHILDREN'S DAY PROGRAM

Aptus' 2 schools in Toronto and York Region welcomed new students in most of the grade levels offered. "It was a year where there were such good fits in our classrooms, between students and staff," said Laura Pietrangelo, Program Supervisor for Aptus' school in Toronto. In January, Aptus' Toronto school had an exciting visitor: Vanessa Grimaldi, a special education teacher who won the final rose in the 2018 edition of the Bachelorette. Aptus' Direct Support Professional Jodi Demberg successfully reached out to Vanessa. After visiting Aptus, Vanessa's foundation No Better You has donated \$25,000 to support the school's purchase of sensory equipment.

After the required closing of schools mid-March, Aptus staff stayed in touch with families, for example, communicating with families on a daily or weekly basis, participating in the school board's virtual classrooms (through Google meets), coordinating with families for the pick-up or delivery of activity boxes, and facetimeing with students seeking support. "Some of our families struggled during this time," said James Brown, Program Supervisor for Aptus' school in York Region. "But all of our families appreciated the support from Aptus staff and Aptus as an organization, providing regular information to families about the pandemic and the future of programming."

**70 students,
ages 4 to 21**

DAILY & RESPITE PROGRAMMING

Day program services were increasingly more community-based over last year – visiting provincial parks, museums, gyms, community centres, local art projects, etc. Aptus welcomed 20% more families to access respite services for their family member at Aptus’ day services building in North Toronto. Aptus also formed partnerships with 11 other developmental service agencies to access Aptus’ programming spaces and sensory equipment. 82 children, youth and adults benefitted from campers benefitted from Camp Jordan this year.

With the dawn of the pandemic, Aptus’ day program and respite services closed. With funding from the federal government, United Way, the Ontario Trillium Foundation, and Aptus’ golf supporters, Aptus launched numerous free virtual programs and in-person respite opportunities.

102 people accessing respite services, including:

- 30 children and youth attended camp at Aptus’ Toronto school
- 14 youth participated in a peer group
- 22 adults accessing respite at Aptus’ day services building
- 36 adults attended Camp Jordan

92 adults participating in day programs

CLINICAL SERVICES

This year, Aptus partnered with the Centre for Behaviour Health Sciences and adopted evidence-based best practices to better meet the needs identified in last year's clinical review which was based on input from over 47 participants at Aptus. Of the 184 people Aptus supports on a weekly basis, 57% were referred by themselves, their family or staff to receive an evidence-based assessment to determine their challenges (e.g., low community engagement, low physical fitness, behavioural challenges) and identify best next steps for follow-through by the clinical team, support staff and families. Over the year, 75% of people have improved skills and confidence in managing life challenges.

The Behaviour Services team transitioned seamlessly to offering virtual and phone-based therapeutic services, trainings and support for grief and loss for people we support as well as staff. Aptus' Occupational Therapist created social stories (using simple language and pictures) for support staff and families to use to explain the pandemic and how to stay safe. The Recreational Therapy team launched Zoom and email-based activities for people to support mobility and mental health. Many of these resources have been shared province-wide.

EMPLOYMENT

Over the year, Aptus expanded employment services, offering United Way's Career Navigator program. Youth, ages 17 to 29, accessed job coaching and skill-building opportunities for different sectors before tapping into employment opportunities. Through funding from the Ministry of Children, Community and Social Services, Aptus provided similar supports with success for Aptus' older clients seeking employment. Todd Smith, Minister of Children, Community and Social Services, said that Aptus "does an excellent job at removing barriers for people with disabilities looking to enter the workforce" when he visited with one of Aptus' successfully employed participants, Branko Petkovic, at his job at Pizza Nova's head office.

With the launch of the pandemic, on-the-job placement efforts were put on hold. Aptus quickly launched virtual employment learning opportunities which have been popular. Aptus was also approved by the City of Toronto to provide additional employment services, in partnership with Project Works.

149 total participants, ages 17 to 56
146 gaining pre-employment skills
28 participants successfully employed

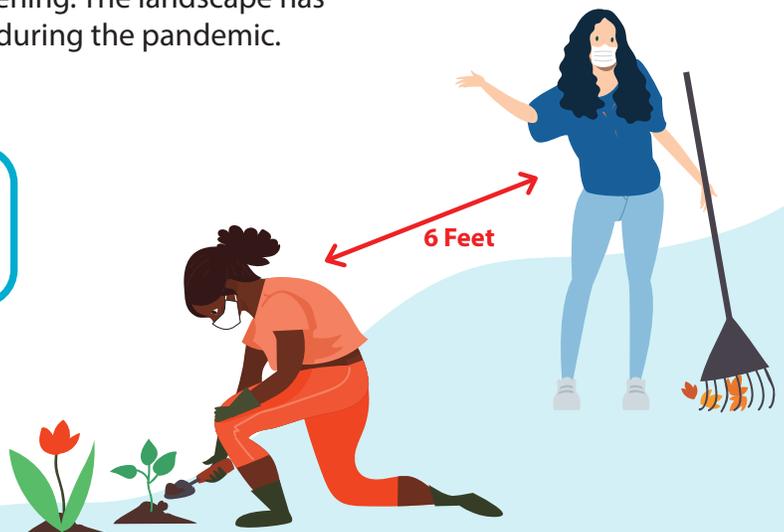

APTUS TEACHING LANDSCAPE

Aptus Teaching Landscape, an outdoor learning space outside Aptus' school in Downsview, is the setting for Aptus' largest programs. Year-round community programming and events funded by the Ontario Trillium Foundation impacted a total of 2,615 people -- 10% more than last year. Inclusive programming and events are generously supported by the Friends of Mossie Park and community volunteers. Through the additional support of the Zachary Van Zant memorial fund, a second staff position was added to support community gardening and events.

As a community garden, city guidelines permitted Aptus Teaching Landscape to reopen in April. Due to the 4-acre size of the landscape, it was easy for people to socially distance and stay safe while still enjoying the vegetable garden, sensory forest and berry thicket. Based on community input, the Saturday community gardening shifted to Monday to Friday drop-in gardening. The landscape has become an important community space during the pandemic.

2615 people impacted

HIGHLIGHTS FROM THIS YEAR

"We support people to achieve their goals through a person-directed approach."

41 Years of Service

2,885 People Impacted by Aptus

199 Children, Youth and Adults Accessed Full-time Schooling, Housing or Community-Based Supports

170 People Accessed Employment Readiness Programming

79 Programs and Enhancements Funded by Donors

Aptus Participated in the Understanding Indigenous Children's Gifts of Toronto Project

2,668 People Accessed Aptus Teaching Landscape

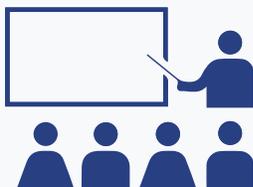

406,732 Hours of Support Provided by Aptus Staff

102 Children, Youth and Adults Accessed Respite (Camps, After-School, etc.)

An Investment of 12,449 Training Hours for Aptus Staff

An Average of 8 Years of Staff Service and Commitment to Aptus

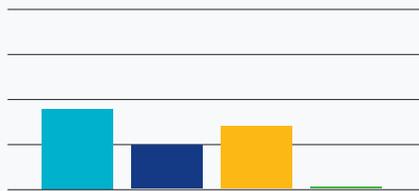

95 Partnerships Have Been Made to Enhance Programs and Build Capacity of Staff

APTUS FACTS

Developmental Disabilities

- 42% Autism**
- 24% other pervasive forms of developmental delay such as Down Syndrome and Cerebral Palsy**
- 32% have both Autism and another Developmental Disability**
- 2% had a post-birth brain injury**

What is a Dual Diagnosis?

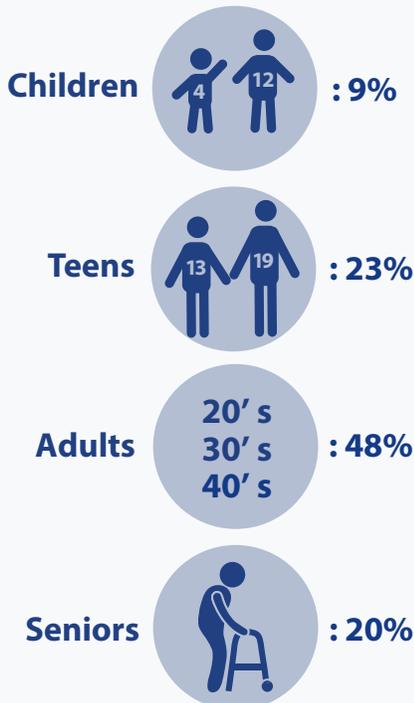

In developmental services, someone is said to have a dual diagnosis when they have both a developmental disability and a mental health disorder. According to CAMH, 50% of Ontarians with a developmental disability have a dual diagnosis. Since 1979, Aptus has specialized in supporting people who have a dual diagnosis.

Mental Health Disorders

A third of the people Aptus supports have an anxiety disorder.

Nearly half have diagnoses of schizophrenia, obsessive compulsive disorder, attention deficit disorder or depression.

Ages

Other Challenges

Aptus also serves children, youth and adults who:

- don't use words to communicate (35%)
- have seizures (17%)
- require one-on-one support (33%)

Aging Faster

At 50 years of age, adults who have developmental disabilities show levels of frailty comparable to other adults at age 80, according to Health Care Access Research and Developmental Disabilities (H-CARDD)'s 2016 report.

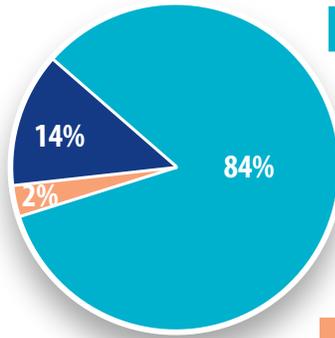

APTUS' TEAM

Aptus is proud to have 223 staff passionate to support people who have developmental disabilities in exploring what matters to them.

Management Team & Admin/Financial/HR

- 7 Senior Management Team Members
- 16 Program Supervisors
- 7 Admin, Financial & HR staff
- 1 School Caretaker

Direct support staff

- 93 Direct Support Professionals
- 12 Team Leads
- 4 Youth Supervisors & Job Coaches
- 31 Relief Direct Support Professionals
- 26 Overnight Awakes (Supportive Housing)
- 21 Part-time Direct Support / Overnight Awake

Clinical staff

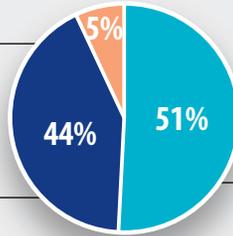

- 5 Clinical Team Members

Staff Longevity

A year or less

Between 1 and 5 years

Over 5 years

Congratulations to the following staff who have worked at Aptus for over 20 years

Major Milestones

Aptus staff participate in ongoing training including:

- Employment Readiness Train-the-Trainer
- Lifts and Transfers training
- First Aid-CPR & Train the Trainer
- Non-violent Physical Crisis Intervention trainings & Train the Trainer
- Policies and Procedures
- Fire Safety
- Staff Wellness Trainings (e.g., "Care for the Caregiver," "Seasonal Stress," "Creating Balance in your Life")
- Infection Prevention & Control trainings (e.g., Donning & Doffing PPE)

Staff Training

Our volunteers and interns make an impact.

- 44 Special event volunteers
- 165 Program volunteers
- 70 Student Interns from:
 - Canadian Memorial Chiropractic College
 - Humber College
 - Ontario Institute for Studies in Education (OISE)
 - Seneca College
 - Toronto College of Dental Hygiene and Auxiliaries
 - York University

THANKS TO OUR SUPPORTERS

April 1, 2019 to March 31, 2020

Thank you to everyone who has supported Aptus Treatment Centre. Your generous support has helped to empower and improve the lives of people who have developmental disabilities.

Over \$1,000,000

GOFFREDO & CARMELA VITULLO

30-year board member, Goffredo Vitullo, and 30-year fundraising leader for Aptus, Carmela Vitullo, together made a gift which will continue giving for decades to come: a new house. Their daughter, Julie, has been a resident in Aptus' group homes since the late 1990's, supported by a loyal team of staff and roommates she has enjoyed living with. Yet with age, Julie was at times seemed frustrated or unhappy in a large house with 10+ staff and roommates.

"Goffredo and I wanted to see if Julie might be happier in a smaller setting, supported by Aptus' amazing staff and living with roommates she likes," said Carmela. The new house has been a great fit. Julie enjoys taking walks in her new neighbourhood and spending time with her long-time roommates, Adrian and Michelle. "We gave this house, both to help Julie in the future, but also to benefit other clients who will enjoy the home with her," said Carmela.

Over \$135,000

(see story on Career Navigator)

Over \$125,000

CANSO INVESTMENT COUNSEL

Canso Investment Counsel, a private investment firm in Richmond Hill, became a major supporter of Aptus last year, when president John Carswell contacted Aptus to take the highest support level available for Aptus' golf tournament. John had learned of Aptus through a friend whose son has the same developmental disability as his nephew. John made the first gift to Aptus in memory of his sister. This year, Canso made one of the largest financial donations Aptus has ever received. Both gifts support residential services.

APTUS CHARITY GOLF CLASSIC 2019

Over \$315,000 raised to Support Housing and Transportation Infrastructure

On September 5, 2019, Aptus hosted its 5th Annual Charity Golf Classic at the popular Copper Creek Golf Club. Over 144 golfers and 88 sponsors participated, raising the event's record amount of over \$315,000.

With these funds, Aptus purchased 2 new vans, made a significant payment towards a property for people with limited mobility, and funded over 50 enhancements to Aptus properties, including repairing or replacing old furniture and appliances. This support was critical this year as people who live in housing shifted to having community based programming launching from their homes.

Loyal event sponsors, Mosiak Homes and Castlepoint Investments contributed to making the event special for Aptus' 40th Anniversary. In theme with the funding priorities, Canso Investment Counsel and Co-Chair, Paul Ostrander, supported with a Commemorative House Sponsorship. The day was full of sunshine, friends, a gourmet BBQ lunch, and food sampling stations. The evening was concluded with an awards banquet celebrating our sponsors.

The event's Platinum and Diamond sponsors included the Muir Family, Bazil Developments, TD Commercial Banking, and Yorkwest Plumbing. Gold sponsors included Amico, Canvas Developments, CRH Canada, The Di Marco Family Foundation, Downsview Heating & Air Conditioning and Downsview Plumbing, KestenbergRabinowicz Partners LLP, Kinross Gold Corporation, L.I.U.N.A. Local 183, Moen Inc., Paradise Developments, Pre-con, Royal LePage Premium One Realty, and RSM Canada LLP.

A special thank you to this generous group of donors who contributed to making a significant and lasting difference in the lives of people supported at Aptus.
